SUMMARY

I graduated recently with a first class degree from Manchester Metropolitan University. I studied mostly programming and data structures using Java and C#, but I focused more on web development after graduation.

GENERAL SKILLS

Web
· JavaScript, Node.js, HTML5, CSS3, jQuery

Software Development
· Java, C#

Operating Systems
· Windows (mostly) , Linux

EXPERIENCE

Summer of 2013 and 2014

Administrative assistant, *Y.Polycarpou Motors*
· Assisted in car inspection and car service
· Assisted with general business administration tasks

EDUCATION

2011-2014 **B.Sc. Computer Science,** *Manchester Metropolitan University*

PROJECTS

 Some of my projects include a sketchpad written with jQuery, a pomodoro timer that focuses on responsive design for mobiles with Stylus as the preprocessor, and I am in the process of creating a simple Node module that returns random numbers, strings, names etc. I hope to create something powerful with Node in the future.
